

# KEES INDUSTRIES INDIA PVT. LTD.

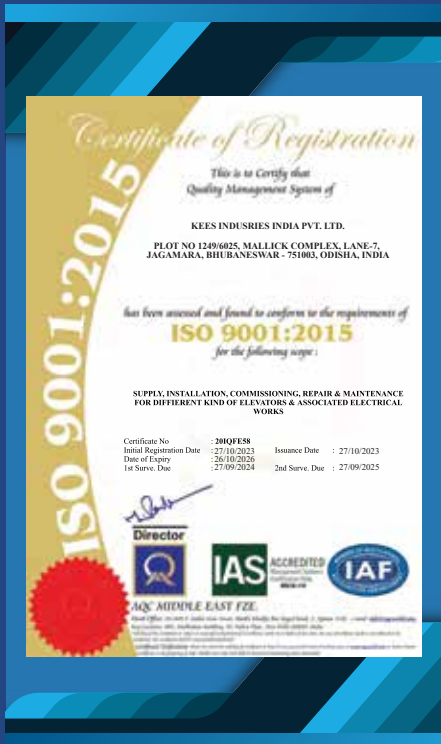

A leading trustable manufacturer, supplier and **ONE OF THE BEST** service provider for different kind of elevators

 [www.keeslift.com](http://www.keeslift.com)

FOLLOW US

**QUALITY** is never an accident.  
It is always the result of intelligent and consistent effort.

**KEES INDUSTRIES INDIA PVT. LTD.** committed to provide splendid quality product and service that fit customer needs and fulfill customer expectations.

KEES at its most basic level, manufacturing quality is conformance to specification. Quality of design and conformance to specifications provide the fundamental basis for managing operation to produce quality products.

The inherent characteristic of a product or service created to satisfy customer needs, expectations and requirements are quality characteristic such as weight , shape, speed , reliability etc.

## OUR MISSION STATEMENT

KEES is committed to play leadership role in elevator industry. We supply excellent product with the most innovative modular design and advanced engineering and commitment to provide 24/7 service backup.

KEES Supported by experts and hard-working professionals, who put their level best towards attacking the goal of our organization. These professionals possess vast industry knowledge and are capable of offering the products as per the set industry standard. Our professional always work in close concert with valued customer to understand their specific needs.

## OUR TEAM

# ABOUT OUR COMPANY

We take pleasure in manufacturing a wide range of lift such as **passenger lift, goods lift, hospital lift, structure lift, home lift, dumbwaiter** etc. The company has been able to successfully expand its product portfolio to meet customer requirements across various segments with elevators.

We here became one of the leading elevator company with excellent engineering capabilities in **India**. We are known as **manufacturer, supplier, dealer and service provider of impeccable range of elevator doors, ss cabin, door frame, bracket, guide rail and complete lift kit**.

Our most important capital is the perfect synergy of employee competence and effective use of global **"know how"** through researches and practical applications with an **objective** to provide quality solution at **affordable** price.

We have set new benchmark in the industry in believing the customer philosophy and satisfaction.

## WHY KEES ? | OUR UNIQUE ABILITIES

### 1 RELIABLE PRODUCT :

The elevator and elevator parts we use are of excellent quality and 100% available with us for **KEES FAST SERVICE**

### 2 SERVICE & MAINTENANCE :

Provide **24x7** service backup with easily replaceable parts by **KEES Dynamic Monitoring Team**

### 3 CUSTOMER FLEXIBILITY :

**Fastest** delivery in segment personalize your complete elevator

### 4 AFFORDABLE PRICE :

**Price** is very **reasonable** in comparison with other companies

### 5 SAFETY :

Available safety and healthy work place which protects worker from injury, and increases productivity, quality and employee morale

## KEES STATEMENT

Value based performance, ethics, transparency of operations and spirits of excellence epitomize **KEES**

## **SAFETY FEATURES : Safety Rules... Our best tools !!!**

### **AUTO RESCUE DEVICE**

It should be " In case of a main power supply failure, the lift stopped between two floors is moved to nearest floor in the downward direction, the automatic door is opened and passengers are out safely"

### **INFRARED LIGHT CURTAIN**

Full height infra red curtain with multiple cross-crossing light beams detect the smallest obstruction in door path and stop doors from closing.

### **OVER LOAD SENSOR WITH AUDIO VISUAL INDICATION**

On overloading of the lift, car audio-visual indication is provided and doors are kept open till excess load is removed.

### **CAR EMERGENCY LIGHT & FAN**

The emergency light is always illuminated in normal condition and switches itself automatically to battery back up in case of power failure as shown in picture. (Block-D) Fan also operates for minimum 20 minutes after power failure.

### **EMERGENCY ALARM & 'PUSH TO TALK'**

In case of any emergency or power failure, help can be obtained by alarming or by communicating at lobby through this system which is battery operated and self charging as shown in picture. (Block-E)

### **SAFETY IN CASE OF OVER TRAVEL**

Three phase electric power is disconnected from control panel and motor, the moment elevator car moves beyond the limit of top and bottom terminal floors causing immediate application of the brake to bring the elevator to halt.

### **SAFETY IN CASE OF ROPE BREAKAGE**

In the elevator of breakage of ropes, elevator speed exceeds the rated speed in the downward direction due to gravitational acceleration. the over speed governor activates the clutch mechanism thereby switching off main controls and jamming the elevator car safety on guide rails.

### **CAR FAN AUTOMATIC SLEEP**

Car fan automatically stops when there are no registered floor calls resulting into saving in power and enhancing its life.

### **VOICE ANNUNCIATOR WITH MUSIC**

This system provides detailed information to passengers related to next floor, direction of movement, door opening/closing, scheduled operations and other information depending on the building needs. This system features natural electronic voice synthesizers.

## STANDARD MODEL

A **Collapsible Door** consists a mild steel frame with two vertical pieces of mild steel channel about **15mm to 20mm wide** are jointly hollow portion of channel inside

These doors are commonly recommended in the situations where light and ventilation are desired even when the opening is closed.

These doors are also used from the consideration of safety and protections of the property.

These doors are extensively used for shops, garages, public buildings, godowns etc.

### DIMENSIONS DETAILS : STANDARD APARTMENT LIFTS (MANUAL OPENING COLLAPSIBLE DOOR)

CAPACITY		CAR INSIDE		LIFT WELL		CLEAR ENTRANCE	CLEAR OPENING AT ENTRANCE

## HOSPITAL LIFT

STRETCHER LIFT

BED LIFT

Hospital bed lift generally transport patients who are not well enough to sit up even in a wheelchair.

Hospital lift are manufactured to consume extremely low amount of power and to be durable with a number of safety features. Most often there will be a rear and a front entry to the elevator cabin.

### KEY BENEFITS :

- Smooth & Jerkless Start and Stop
- Longlife & Low power consumption
- Longlife superior in performance and reliable
- In-built ARD installed for the purpose to rescue patients at the time of power failure
- Overload indicator and extra safety features are used in hospital lift

## GEARLESS MACHINE-ROOMLESS REVOLUTION

Conventional  
Machine Room

Machine-Roomless  
with Control Room

True  
Machine-Roomless

Machine room less elevators are designed so that most of the components fit within the shaft containing the elevator car and a small cabinet houses the elevator controller

**KEES** explore of permanent synchronous gearless traction machine technology which represents for future developing orientation of the elevator, energy and space saving and building cost reduction are max characteristics of this core technology which leads this industries in the world.

It supplies the infinite creation possibilities in the limited space of modern architectures.
